

**The Number One Choice for
 New Payphones (Outdoor and Indoor), Spares, Repairs, Management Systems, Support and Kiosks**

We understand the payphone market and the pressures on payphone operators with falling revenues. Whether you are looking to replace/increase your payphone base, extend the life of your current product, or produce additional revenues by diversifying into web-phones or kiosks, X2 Connect is here to help. In addition we have a team of dedicated software engineers available to assist your management information requirements 24 hours per day, seven days per week.
